

# CURRENCY

RELEASED MAY 2011

www.omatter.com

Originality deserves its share of coin, so we created the world's first frame that combines temples of lightweight C-5™ alloy with a front chassis made of stress-resistant O MATTER®. The sculptural UNOBTAINIUM® earsocks of CURRENCY™ salute the bike grip invention that launched Oakley, and our vintage logo adorns the sides with dimension. This comfortable eyewear goes from street to sport, so we engineered TWIN SHOCK™ hinges that hyper-flex when life starts busting through boundaries.

Our very first creation was a bike grip with a unique design that fit the rider's closed hand, and to honor warriors on wheels, we put the grip pattern on the outer facing of the earsocks. Our titanium TWIN SHOCK hinges flex beyond their normal open position for added durability. They are an innovation inspired by the leaf springs of racing machines, and they don't push the earstems into your head like inferior designs that maintain relentless pressure. Be sure to match CURRENCY with Oakley Authentic Prescription Lenses in a wide range of options.
