

IMMERSE

RELEASED MAY 2011

OAKLEY

www.omatter.com

It's all in the curves with Oakley IMMERSE®, an oversized shield sculpted from lightweight O MATTER®. Athletic yet graceful, Oakley Immerse is ready to dive into whatever the day holds. These are the kind of full coverage sunglasses that perform under pressure without even breaking a sweat.

Accented with a metal icon, the durable Immerse frame offers all-day comfort, plus Oakley's patented hydrophilic UNOBTAINIUM® nose pads to ensure a snug, secure fit. Our high-performance Three-Point Fit holds lenses in precise optical alignment and you certainly dig having optimized peripheral view and side coverage courtesy of Polaric Ellipsoid™ lens geometry.
