

PIT BULL

RELEASED MAY 2011

OAKLEY

www.omatter.com

Aggressive contours of lightweight O MATTER® frame material give PIT BULL™ a look that's pure Oakley. The bold, sculptural earstems take advantage of dual cam hinges, along with UNOBTAINIUM® earsocks and nose pads that increase grip with sweat. PIT BULL comes with the all-day comfort of a Three-Point Fit and a look that makes ordinary frames just muzzled mutts of style.

We did a lot of innovating before we let this one out of the kennel, and you'll appreciate the HIGH DEFINITION OPTICS® (HDO®) that let Oakley PIT BULL shred ANSI Z87.1 standards for optical precision and performance. A full 8.75 base lens curvature extends your peripheral view and improved side protection. You'll have 100% UV filtering plus impact resistance that meets ANSI Z87.1 standards. Match PIT BULL with Oakley HDPolarized technology for the best polarized lenses on the planet.

BENEFIT

- 1 Extremely lightweight and durable nylon infused plastic frame material.
- 2 Rubber compound that gets tackier as you perspire, ensuring a snug and secure fit.
- 3 Sculptural 3 dimensional design language that is synonymous with classic Oakley styling.

FEATURE

- O MATTER FRAME MATERIAL**
- UNOBTAINIUM**
- 3 DIMENSIONAL STYLING**

TESTIMONIALS

"No matter what I am doing throughout the day I know they aren't going to fall off my face because they have this rubber coating on the ear piece and next to the nose. They fit really secure and comfortable."
