

REMEDY

RELEASED MAY 2011

OAKLEY

www.omatter.com

With an ultra-cool, square shield made of C5™, OAKLEY REMEDY™ is the cure for the common sunglass. Its standout good looks continue with contrasting textured inserts that curve along the stems. And the final ingredient in the OAKLEY REMEDY recipe is pure genius: tangle free nose pads that won't grab your hair.

Your eyes will thank you for the superior vision OAKLEY REMEDY provides. First, there's the expanded field of view - compliments of extended lens coverage - then there's the optimized peripheral vision via Oakley's POLARIC ELLIPSOID™ lens geometry. For ray-stopping UV protection, we've used PLUTONITE® lens material that filters out 100% of UVA / UVB / UVC & harmful blue light up to 400nm.
