

JUPITER SQUARED

RELEASED NOVEMBER 2011

www.omatter.com

We've been slicing up standards for decades and carving new territory for style, and Oakley JUPITER® SQUARED is a cut above. The handles of switchblade knives inspired the earstems and their metal bands and rivets.

You've got more than a few options for the frame and lens colors. Multiple styles are optimized with Oakley HDPolarized lenses to put a stop to blinding glare while offering premium clarity, optical precision and impact resistance. Renditions with IRIDIUM® lens coating reduce even more glare and balance light transmission to tune your vision.
