

# PREMONITION

RELEASED NOVEMBER 2011

**OAKLEY**

www.omatter.com

A wonder of geometry, Oakley PREMONITION® squares off with soft edges and a sharp sense of style. These thick rectangular frames work all the right angles.

Sculpted from stress resistant acetate, these frames are lightweight yet very durable. Bent ear stems are engineered for your total comfort while heat adjustability provides a terrific fit.

At the temple, a metallic “O” buckle adds a kick of contrast to keep things interesting. When not in use, keep your PREMONITION under wraps in their collection specific protective case.
