

BOTTLE ROCKET

RELEASED MARCH 2012

Armed with the best polarized lenses on the planet, BOTTLE ROCKET™ makes performance soar with semi-rimless architecture and a wide open view of possibility. The lightweight yet durable O MATTER® frame offers all-day comfort with UNOBTAINIUM® earsocks that maintain a no-slip grip. This classic Oakley look is engineered for lifestyles that refuse to stand still.

We let art and science collide to create BOTTLE ROCKET. The open-edge lenses have 8.75 base curvature to give you wide peripheral vision.

Oakley HD Polarized lenses come standard with BOTTLE ROCKET, but there's nothing standard about their performance. They don't have the haze and optical distortion common to ordinary polarized lenses, and with the patented innovations of HIGH DEFINITION OPTICS® (HDO®), you get unrivaled visual clarity and protection.
