

DEVIATION

RELEASED APRIL 2012

The stone-cold cool of vintage aviators now has the heat of Oakley attitude. DEVIATION™ pours classic styling into a lightweight frame of C5™ alloy with a unique square lens shape and the all-day comfort of sure-grip Unobtanium®. Premium optical technologies are paired with a look that strafes past the ordinary and lets originality fly solo.

To earn our icon, DEVIATION had to hone an edge on style, so sculptural detailing on the ear stems gives it a fresh vibe that stays true to the look. The final touch is a signature Oakley logo on the top of the bridge.

You can get this Oakley original with premium HDPolarized lenses to filter out harsh glare. We produce them with a liquid infusion process that eliminates the haze and optical distortion of conventional manufacturing techniques. All lens options for this frame feature pure PLUTONITE® lens material that filters out every single searing ray of UV, not just UVA and UVB. DEVIATION is well suited for corrective lenses, and you can get Oakley Authentic Prescription Lenses.
