

CROSSHAIR

RELEASED MARCH 2012

OAKLEY

www.omatter.com

This flashback flows with fluid contours that put a fresh spin on a classic teardrop shape. Sculptural detailing lays down distinction in a durable frame of lightweight C5™ alloy, and CROSSHAIR® carries UNOBTAINIUM® components to keep a grip on comfort. This is how yesteryear hits the forefront of style, and the vintage flavor is seasoned with premium optical technologies.

Metal frames with teardrop lenses are time-honored designs. When we created CROSSHAIR, we respected the classics but added more than a few modern innovations in performance, comfort and protection. We started off with C5, an alloy of five metal compounds that team up to optimize durability while minimizing weight. Then we let our artists cut loose. The result is contemporary detailing that sets this frame apart while paying homage to iconic style.

**POLISHED GOLD /
DARK GREY**

BENEFIT

- 1** Built on the classic and iconic styling of the original Crosshair.
- 2** Available with either C5 Alloy or Titanium frame materials, for a lightweight frame with superior durability.
- 3** Patented lens technology ensuring the clearest and most optically correct lenses on the planet.

FEATURE

ICONIC STYLING

LIGHTWEIGHT FRAME MATERIALS

HIGH DEFINITION OPTICS (HDO)

TESTIMONIALS

"Even though this glass looks very much like a casual or fashion-style glass, it's embedded with the heart of Oakley, which is our High Definition Optic lenses."
